

26th ANNUAL CONFERENCE PROCEEDINGS

26-28 JULY 2011 – Bathurst NSW

“GRASSLAND FARMERS – OPPORTUNITIES, THREATS & REALITIES”

Invited Papers	Author	Page
Threats, realities and opportunities of grassland farming in the central Tablelands	K Behrendt, J Eppleston	12
Farming the grass curve in the context of changing opportunities in the Australian lamb market – a central Tablelands perspective	GM Salmon, GJ Salmon	23
Developing livestock preventive medicine programs with grassland farmers	BR Watt	30
Performance for profit	M Ryan	34
Pseudo-science: a threat to agriculture?	DC Edmeades	38
Soil chemistry – facts and fiction and their influence on the fertiliser decision making process	N Menzies, D Harbison and P Dart	49
The Pegala Pastoral company – Vertically integrating cropping and beef production systems	M Mason	65
Factors affecting pasture production in variable landscapes – how does it influence fertiliser use and other management issues?	B Hackney, P Orchard, D Kemp and B Orchard	67
Landscape and grazing management affects on pasture production and persistence on “Dunns Plains”	B Townson	74
Collaborate to survive and thrive	J Gladigau	78
Cereal based forage crops for hay and silage production	J Piltz, C Rodham, J Walker, P Matthews, B Hackney and JF Wilkins	81
Optimising the intake of feed by pasture-fed sheep and cattle	CT Westwood	88
Varying sheep production from different pasture types	J Brien	99
Contributed papers	Author	Page
Bioscapes – an introduction to biodiversity in grazing landscapes	C Edwards	105
Surveys of grazing industry end-users in northern New South Wales	GM Lodge	107
On-farm monitoring of sheep and pasture production in the EverGraze northern New South Wales project	GM Lodge, MA Brennan, PT Sanson, BR Roworth and IJ Stace	111
Developing pasture and livestock benchmarks for sheep production in northern New South Wales	GM Lodge	115

Comparisons of methods for estimating herbage mass in small plots	GM Lodge, S Harden	119
Using height and density to estimate the herbage mass of different pastures in northern New South	GM Lodge, MA Brennan, PT Sanson, BR Roworth and IJ Stace	123
"Trevena" sheep production demonstration site of methane emissions on the northern Tablelands of NSW	C Edwards, MJ McPhee, J Meckiff, N Ballie, D Schneider and R Hegarty	127
Using near infrared reflectance spectroscopy (NIRS) to determine nutritive value of tropical perennial grasses	SP Boschma, SA Sissons and MJ Sissons	129
Herbicides evaluated for tropical perennial grasses	LH McCormick, SP Boschma, AS Cook and BM McCorkell	133
The value of 'alternative nitrogen fertiliser products on pasture. 1. Pasture production at three sites	CE Muir, N Griffiths and P Beale	136
The value of 'alternative nitrogen fertiliser products on pasture. 2. Pasture quality and carryover effects at Tocal	CE Muir, N Griffiths and P Beale	140
The use of pig manure – a study at Wollun, NSW	C Edwards, M Duncan	143
Poster papers	Author	Page
Investigating the impact of cover cropping on a native pasture system in southern Queensland	L Bailey, S Murphy and C Guppy	147
Managing tropical perennial grasses for livestock production – a case study	BR McGufficke	149
Benefits and uses of plantain (<i>Plantago lanceolata</i>) cv. Ceres Tonic in livestock production systems in New South Wales	HG Judson, AJE Moorhead	151
Australian breeding of persistent perennial ryegrass without endophyte	A Leddin	153
Effect of ensiling on weed seed viability	J Piltz, R Stanton, C Rodham and H Wu	156
Travel grant report	Author	Page
Report of travel to New Zealand to attend the 15th Australian Society of Agronomy Conference and visit two NZ Agresearch Institutes	MR Norton	158
