(d)

THE GRASSLAND SOCIETY OF N.S.W. INC.

The Grassland Society of NSW was formed in March 1985. The society now has 500 members, 75% of whom are farmers and graziers. The balance are agricultural scientists, farm advisers, consultants, and executives and representatives of organizations concerned with fertilizers, seeds, chemicals and machinery.

The aims of the society are to provide opportunities for members to meet in conference, at field days or socially, to exchange information, ideas and experiences relating to grassland.

Other aims of the society are to advance the investigation of problems affecting grassland husbandry and to encourage the adoption into practice of results from research and practical experience. The society holds an annual conference, publishes a quarterly newsletter, holds field days and is establishing regional branches.

Membership is open to any person or company interested in grassland management and the aims of the society. Ordinary (including family or farm units), student and corporate membership is available.

The corporate members of the society are:

Australian Fertilizers Ltd

Commonwealth Development Bank

DMM Lime, Tamworth

Elanco Products Co.

Monsanto

Natcom Marketing Pty Ltd

Sandoz

Valley Seeds Pty Ltd

Westpac Banking Corporation

Wright Stephenson & Co (Australia)

Hodder & Tolley

CONTENTS
